## COMPANIES REPRESENTED

**ASCO Power Technologies - Emerson**  
**Transfer Switches**  
**Mechanically Held Contactors**  
**Paralleling Switchgear**  
**Value Added Transfer Switches**  
**ASCO Services, Inc.**  
[www.ascopower.com](http://www.ascopower.com)

Automatic & Manual Transfer Switches – For Residential, Commercial and Industrial Applications. Delayed Transition, Bypass Isolation, Closed Transition, Soft Load, Service Entrance Rated, Special Transfer Applications.  
Medium Voltage Transfer Switches with Communication Capability.  
Paralleling Switchgear:  
Low Voltage SYNCHROPOWER® Systems, Medium Voltage SYNCHROPOWER® Systems, 4000 & 7000 Series Digital Generator Paralleling Control Switchgear,  
Value Added Transfer Switches:  
Transfer Switch with Distribution System, Two and Three Source Automatic Transfer Systems, ATS Switchboards.  
Lighting Contactors and Remote Control Contactors:  
Surge Suppressors (TVSS)  
ASCO Connectivity Solutions:  
ASCO Services, Inc.:  
Modification and Upgrades to Existing Equipment, Emergency Service, Startup Service and Preventive Maintenance Programs

**BENDER Inc.**  
**Industrial Products Group**  
[www.bender.org](http://www.bender.org)

Electrical Safety Products  
Ground Fault Relays; Ground Fault Location Systems; Portable Ground Fault Locators' On-Line and Off-Line Insulation Monitors; Low Voltage Protective Relays; and Residual Current Monitoring

**BURTON ELECTRICAL ENGINEERING**  
[www.burtonee.com](http://www.burtonee.com)

AC Power Cable Assembly (400 Hz); DC Power Cable Assembly and Extension Cables for use with all Types of Aircraft; External Electrical Power Cables

**CONTROLLED POWER COMPANY**  
[www.controlledpwr.com](http://www.controlledpwr.com)

Power Conditioning and Power Purification Systems Voltage Regulators, Isolation Transformers, Power Conditioners, Single Phase Ferro Resonant UPS, DC Powered MRI Suite Lighting, Power Regulating Equipment for Medical Applications, Lighting Inverters and DC Power Systems

**EAST CONDUIT / SNT Services**  
[www.steelntube.com](http://www.steelntube.com)

Electrical Conduit  
Electrical Metallic Tubing (EMT)  
Rigid Steel Conduit (GRC)  
PVC Coated Rigid Conduit  
Color Electrical Metallic Tubing

**FILNOR, INC.**  
[www.filnor.com](http://www.filnor.com)

**FIRETROL, Inc.**  
**Fire Pump Controllers and Industrial Drive Systems**  
[www.firetrol.com](http://www.firetrol.com)

**GILBERT / K&M**  
**MV Power Factor Correction Capacitors**  
[www.gilbertelectrical.com](http://www.gilbertelectrical.com)

**HIGH-LITES**  
**Emergency Lighting for Commercial and Industrial Applications**  
[www.highliteslighting.com](http://www.highliteslighting.com)

**ISOTROL SYSTEMS**  
**Medical Division of BENDER, INC.**  
**Isolated Power Centers**  
[www.isotrolsystems.com](http://www.isotrolsystems.com)

**KINETICS INDUSTRIES**  
**DC Power Supplies**  
[www.kinetics-industries.com](http://www.kinetics-industries.com)

**LEA INTERNATIONAL**  
**Surge Protection Devices**  
[www.leaintl.com](http://www.leaintl.com)

**MPHusky CORPORATION**  
**Cabl-Bus**  
[www.mphusky.com](http://www.mphusky.com)

Resistors – Power Resistors;  
Motor Control Equipment – Crane Controls, Magnet Controls (AC & DC Power Supply)  
Switches – Knife Switch, Master Switch and Joystick Controls; Bolted Pressure Switches; and High Current DB Switches  
Panelboards – Special NTCII Distribution Panel Switch and Fuse Power that requires Faster Circuit Interruptions than standard magnetic breakers. This Panel provides a switching device and protection by fast acting fuses.

Fire Pump Electric Controllers - AC Controllers from 120 Volts to 7200 Volts - Full Voltage, Wye-Delta, Autotransformer Part Winding, VFD and Solid State Soft Start Applications.  
Limited Service Electric Fire Pump Controllers  
Diesel Engine Controllers for 12 & 24 Volt Start, Class 1, Div 2 Diesel Engine Controllers  
Jockey Pumps  
Standalone ATS for Fire Pump Controllers

Special Customized Electrical Equipment, Turn-key Industrial Packages, Metal-enclosed Assemblies, Capacitor Assemblies, Primary Switchgear, Harmonic Filter Applications, and Harmonic/ Power Factor Correction Studies.

Exit Signs, Emergency Lighting Fluorescent Emergency Ballasts, Remote Lighting Heads, Including Single Phase and Three Phase Lighting Inverters, Central DC Emergency Power Systems.

Isolated Power Systems and Accessories for Operating Rooms. Including Surgery, X-Ray, and Laser Applications. Power and Ground Modules, Patient Service Consoles, Line Isolation Monitors and Remote Indicators. Digital Clock/Elapsed Timers and Test Equipment.

Engineering Power Conversion Solutions: Rectifiers, Power Supply, Field Excitation Systems, Cranes, Magnets, Elevators, Transit and DC Substations.

Transient Voltage Surge LEA International's team of surge suppression specialists provides you state-of-the-art surge protection backed by excellent service and expertise for your application. Our Engineering Product Design Team's core competencies include AC, DC and data signal surge protection, lightning protection, grounding and power quality consulting.

Engineered Cable System Reliable, Cost-effective, Flexible and Maintenance Free Alternative for Power Distribution Feeder Systems. Voltages from 600V - 69kV. Ampacity from 1000A - 8000A. Indoor and Outdoor Applications.

**NATIONAL METER INDUSTRIES**  
**Power Monitoring & Revenue Metering**  
[www.national-meter.com](http://www.national-meter.com)

**OLSUN ELECTRICS CORPORATION**  
**Dry-Type & Special Transformers including**  
**Reactors & Switchgear**  
[www.olsun.com](http://www.olsun.com)

**PYROTENAX® – Tyco Thermal Controls**  
**Mineral Insulated Cable (MI Cable)**  
**Raychem® Polymeric Fire Rated Cables**  
[www.tycothermal.com](http://www.tycothermal.com)

**RUFFNECK HEATERS**  
**Explosion Proof Heaters / UL Listed**  
[www.ruffneck.com](http://www.ruffneck.com)

**SCOTT ENGINEERING**  
**High Voltage Pad Mounted Equipment**

**SERVICE MACHINE COMPANY (SMC)**  
" PDP " " OB Systems " " Ensign "  
[www.smcelectrical.com](http://www.smcelectrical.com)

**SPRING CITY ELECTRICAL MFG.**  
**Cast Junction Boxes**  
[www.springcity.com](http://www.springcity.com)

**STACO ENERGY PRODUCTS CO.**  
**Power Quality and Voltage Control**  
[www.stacoenergy.com/PFC.html](http://www.stacoenergy.com/PFC.html)

**TECHNIBUS**  
**Non-Segregated Bus Duct**  
[www.technibus.com](http://www.technibus.com)

**WATT WATCHER™** Power Monitoring & Revenue Metering with Communications, Software & Peripherals, Measuring Transducers, Digital Instrumentation, Portable Monitors and Current Transformers.

Conventional Dry Type Transformers, from 5 VA to 10,000 KVA and Voltage Classes Through 35 KV.  
Encapsulated (Silica / Resin) Transformers to 500 KVA with or without 316 Stainless Steel Enclosure  
Substation Transformers to 10,000 KVA – VPI  
Hazardous Location Transformers - Class 1, Div 2  
316 Stainless Steel - UL Listed to 75 KVA  
K-Factor and Harmonic Mitigating Transformers  
Drive Isolation Transformers  
Cast Coil Transformers  
Pad Mounted Transformers UL Listed to 5000 KVA  
Motor Starting Auto Transformers  
Current Limiting Reactors and AC Reactors  
Load Interrupter Switches & Switchgear

Fire Resistive Electrical Cables & Components System 1850 MI Cable, UL LISTED for 2-Hour rating for Critical and Essential Circuit Protection. Fire Pump and Service Entrance System 1850SE Raychem® RHW, MC & CI Electrical Circuit Protective System as referred to in Articles 695 and 700 of NEC applications. (Pyrotenax®)

UL Listed Explosion Proof Heaters, Class I, Div. 1 & 2, Class II, Div. 2; Explosion Proof Electric Air Heaters, Explosion Proof Heat Exchanger Units - Steam or Fluids, Explosion Proof Thermostats

High Voltage Padmounted Equipment Switch Cabinets, Switch and Fuse Cabinets Fuse Cabinets, Metering Cabinets, Cable Terminator Cabinets, Capacitor Cabinets and Special Design Cabinets

Custom Manufactured Mining Distribution Power Centers and Mining Transformers

Cast Iron and Aluminum Junction Boxes; Expansion Fittings, and Pull Boxes

Reactive Power & Harmonic Compensation  
Voltage Ratings from 240 to 600 VAC, Fixed or Automatically Switched Systems, Harmonic Filtering for Optimum Power Quality, Small Footprint with Maximum KVAR, Standard Off-The-Shelf Units and Specification Designed. Sizes from 50 to 2,400 KVAR, with up to 800 KVAR in Individual Units

Metal Enclosed Non-Segregated Bus Duct 600 V thru 38-KV Bus Bar Insulation using State-of-Art Technology of Fluidized Bed Epoxy process

**TECHNICAL POWER SERVICES**  
**Technical Studies**

[www.technicalpower.com](http://www.technicalpower.com)

**TOSHIBA CORPORATION**  
**UPS Systems & Surge Protection**

[www.toshibaups.com](http://www.toshibaups.com)

**TRYSTAR Cable & Power Solutions**

[www.trystar.com](http://www.trystar.com)

**VANTRAN INDUSTRIES, INC**  
**Oil-Filled Pad, Substation Transformers**

[www.vantran.com](http://www.vantran.com)

**VISICOMM INDUSTRIES**  
**Solid State & Rotary Frequency Converters**

**50/60 Hz to 400 Hz**

**50 Hz to 60 Hz or 60 Hz to 50 Hz**

[www.50hz.com](http://www.50hz.com)

On-Site Power Quality & Harmonic Evaluation Services Test Reports and Corrective Recommendations. Applications include Computer Rooms, Process Control, Instrumentation and Communication Systems

Uninterruptible Power Systems Single Phase and Three Phase. 1 – 22 KVA Single Phase On-Line UPS 1 – 3 KVA Single Phase Rack Mount On-Line UPS 15 – 3000 KVA Three Phase On-Line UPS

Generator Docking Stations for Safe and Easy Connection for Generator Power - Up to 4000 Amps.

Rotary Generator Docking Stations.

Dual & Single Kirk-Key Generator Docking Stations

Portable Power Cable and Connection Devices

Transformers OISC - Pad Mount, Pole, and Substation from 5 thru 7500-KVA up to 35-KV Primary (200KV BIL). Including Specialty, Retrofit, Submersible and SCR Duty.

Motor-Generator Set Frequency Converters Units 6 to 2000 KVA with Outputs of 400Hz, 60 Hz, or 50 Hz

Solid State Single Phase – 1 KVA to 20 KVA

Solid State Three Phase – 10 KVA to 320 KVA

3/10
